Summary

Microsoft-certified analytics expert with a proven track record of driving operational excellence and business growth through data-driven insights across technology, supply chain, healthcare, and government sectors. Recognized for developing and implementing business intelligence strategies, leading cross-functional teams, and fostering innovation through data engineering and analytics. Passionate educator and mentor, delivering engaging, learner-centered training and curriculum to diverse audiences while empowering emerging talent through hands-on guidance and industry-informed instruction. Adept at bridging technical and business needs, aligning analytics initiatives with organizational goals, and cultivating high-performing, collaborative learning and work environments.

Core Competencies

- Data Analysis & Engineering (SQL, Python/R, Excel, ETL, Data Modeling, Data Warehousing, Data Lakes, Data Cleaning, Data Preparation, Pipelines)
- Business Intelligence & Visualization (Power BI, Microsoft Fabric, Tableau, dashboard development, data storytelling, data product guidelines)
- Cloud Platforms & AI Tools (Azure, AI-driven BI features, Azure Fundamentals, version control)
- Curriculum Development & Instruction (Lesson planning, training, coaching, mentoring, interactive delivery, adapting to diverse learning styles, professionalism assessment, labs, activities, tutorials)
- Communication & Collaboration (Stakeholder engagement, clear presentation, feedback adaptation, teamwork, mentorship, cross-disciplinary teams)

Certifications

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)
- Microsoft Certified: Azure Enterprise Data Analyst Associate (DP-500)
- Advanced Google Analytics

Professional Experience

President, HGX Services *October 2023 – Present*

- Prepare, deliver, and continuously refine lessons, assignments, tutorials, demonstrations, and labs on data analytics, BI tools, and data fluency for diverse audiences.
- Integrate personal industry experience in lesson planning and curriculum development to ensure alignment with evolving industry standards and relevance.
- Mentor and guide learners, providing support catered to individual learning needs.

- Develop data governance policies, dashboards, and data product guidelines, fostering data-driven decision-making.
- Lead the design and build of databases to ensure high data quality and integrity (e.g., Vancouver Airport Baggage Handling System Asset Management database).

Analyst, Canada Revenue Agency *November 2022 – June 2023*

- Communicated complex technical and analytical solutions in clear, user-centered language.
- Reviewed and analyzed user trends, contributing insights for business process improvement.

Product Specialist, Trilogy *February 2022 – September 2022*

- Delivered technical training and documentation for staff and end users.
- Achieved high feedback scores through effective communication and mentoring on technical products.

Senior Business Analyst, Stears *March 2020 – January 2022*

- Developed customer success and training frameworks for data-driven initiatives.
- Designed and implemented dashboards, performance analyses, and data fluency activities utilizing Python, R, and Google Analytics.
- Provided mentorship and support to cross-functional teams.

Senior Data Analyst, ExxonMobil *November 2017 – January 2020*

- Facilitated classroom-style training and labs for users at all skill levels.
- Designed KPIs, data governance frameworks, and reporting dashboards for global teams.
- Maintained meticulous records and documentation for performance and attendance.
- Supported team development and data-driven problem-solving in interdisciplinary environments.

Data Analyst, HSDF *November 2015 – October 2017*

- Planned and delivered technical training for analytics and reporting tools.
- Managed and maintained analytical dashboards for diverse stakeholder groups.

Education

- Business Intelligence, Data Analysis, and Reporting — Southern Alberta Institute of Technology
- MPhil, Aerospace Engineering — Manchester University
- MEng, Mechanical Engineering — Manchester University
- BEng, Mechanical Engineering — Manchester University
